Little Paws Protection Plan- Teenager
Plan Summary

Welcome to your Little Paws Protection Plan!

This summary contains important information that you should know about your Little Paws Protection Plan to help you understand its features and benefits.
For additional details about the conditions, limitations and exclusions of this Care Plan, please read our Care Plans Terms and Conditions which can be found via www.nmfv.com.au/CarePlans-TandCs

If you have any questions, please speak with our team on 0732970803.

What is the Little Paws Protection Plan?

Little Paws Protection Plan (Teenager) is a preventative healthcare subscription that bundles a set of key veterinary services and products for your pet over 9 months. It helps to take the stress out of pet care, ensuring that they are protected against important parasites. It also makes preventative care for your pet more affordable by allowing you to pay monthly.
We know that sometimes preventative health care can seem difficult to keep on top of. Flea prevention, tick prevention, worming, nails...

It's a lot. We get it.

With our Little Paws Protection Plan, you can "set and forget" their preventative health care while still understanding the value and importance of it all.
Trust us to take care of it for you!

What is included?

Once enrolled in our Little Paws Protection Plan (Teenager) your dog can receive:

- One (1) heartworm injection, providing protection for 9 months
- Three (3) doses of oral long-acting flea & tick prevention; one every 3 months
- Three (3) doses of broad-spectrum intestinal wormer; one every 3 months
- Three (3) nail clips with our nurses
- T.L.C.** at each visit

**Tender Loving Care – to help foster positive experiences with each visit and reduce the stress of vet visits. A little TLC can make a big difference, with positive reinforcement, playtime and socialisation or whatever your dog needs to help feel more at ease during their visits with us.

What is not included?

Our Little Paws Protection Plan (Teenager) does not include the following:

- Examinations or assessments performed by a vet ("a consultation")
- Vaccinations
- Specific praziquantel doses for tapeworm prevention and treatment.
- Spot-on preventative treatments for fleas, ticks, intestinal worms, and/or heartworm.
- Collars for the prevention of fleas and/or ticks.
- Sedative medications used to facilitate visits or examinations with our vets and nurses.
- Hospital visits and additional sedation procedures for nail clips

Who can enrol in a Little Paws Protection Plan (Teenager)?

Any dog over the age of 5 months can enrol in our Care Plan. Puppies under the age of 5 months cannot enrol due to our vaccination recommendations.

How to enrol and use your Care Plan

Visit us to weigh your dog and determine which Care Plan weight range is suited to your dog. Our team will then enrol your dog to the Care Plan and send you a text or email link to complete your monthly subscription. Once your subscription registration and first payment are complete, then you can start redeeming your benefits straight away.

Efficacy of tick prevention

No tick preventative product gives a 100% guarantee of prevention against tick paralysis. Occasionally, tick paralysis may still occur despite your dog's tick prevention being current and up to date. North Maclean Family Vet recommends that you perform a tick search of your dog daily to minimise the risk of break-through tick paralysis cases.

If you have questions about our Little Paws Protection Plan or general preventative care, please speak with our friendly team!
